Summary

ECE graduate with hands-on experience in Python Full Stack development through internship experience and practical projects. Skilled in Python, Django, React Basics, JavaScript, HTML, CSS, SQL, and PostgreSQL. Currently expanding knowledge in Data Engineering, including ETL/ELT, PySpark, and Databricks, with a focus on building practical data pipelines and database solutions.

Education

Kakatiya Institute of Technology and Science for Women, Nizamabad B.Tech in Electronics and Communication Engineering	2022 - 2026 CGPA: 9.02/10
Alphores Junior College, Nirmal HSC – 12 th	2020 - 2022 Percentage: 97.6%
Chanakya High School, Nirmal SSC – 10 th	2019 - 2020 CGPA: 10

Technical Skills

Programming Languages: Python, JavaScript (ES6+), SQL

Data Engineering: ETL, ELT, Data Cleaning, Data Transformation, Data Validation, Data Pipelines, CDC, SCD, Idempotency

Big Data: Apache Spark, PySpark, Spark SQL

Cloud & Platforms: Databricks

Core Python: Functions, Object-Oriented Programming (OOP), List Comprehensions, File Handling, Exception Handling.

Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap5, Responsive Web Design

Backend: Python, Django, Django REST Framework (DRF), REST APIs, Authentication, MVT Architecture

Databases: PostgreSQL, Oracle

Version Control & Tools: Git, GitHub, VS Code, Power-Bi

Projects

E-Commerce Data ETL Pipeline:

Tools & Technologies: Python, PySpark, Apache Spark, SQL

- Developed an ETL pipeline using **PySpark** to process and transform e-commerce source data. Performed **data cleaning and validation**, including handling null values, removing duplicates, and validating data quality.
- Used Apache Spark for distributed data processing and designed the pipeline to handle large volumes of data efficiently.

AI-Powered Multilingual Communication Platform:

Tools & Technologies: Python, Django, React.js, PostgreSQL, Gemini API

- Integrated AI-based language translation APIs to provide real-time text translation & improve multilingual accessibility.
- Implemented authentication, REST APIs, and responsive frontend-backend integration.

Certifications

- Object Oriented Programming using Python – Infosys Springboard
- Certificate of Achievement – TCS iON Career Edge - Young Professional
- Python Programming – Reliance Foundation Skilling Academy

Internship

- Python Full Stack Development Intern- QSpiders .
- Developed web applications using Python, Django, React, HTML, CSS, JavaScript, SQL, and PostgreSQL.
- Implemented CRUD operations, Django ORM, REST APIs, authentication, and responsive web interfaces.
